Enable Productive Outcomes for Every User

Mapmyclasses integrated ERP+LMS offerings allows all stakeholders in the educational ecosystem – from students to admins, including parents and faculty – the opportunity to leverage the power of SaaS and integrated management to benefit from digitized, responsive, tailor-made and cutting-edge solutions.

Integrated Institution Management – ERP + LMS

Institutions

Automate admin work, increase efficiency and reduce overheads while managing all data pertaining to the institution via mapmyclasses' state-of-the-art ERP solution

Teachers

Build a more responsive learning environment through the use of mmc LMS's learning features – allowing enhanced student profiling as well as better tailored learning delivery

Parents

Use to track wards' progress more effectively, allowing for better calibrated expectations, increased transparency and ability to stay up-to-date on all school and academic updates

Students

Provides comprehensive learning pathways, accessible always anywhere any form content, improving students' engagement with learning and spiking their interest in outcomes

Affordable Solutions, Accessible to all

Vision:

Deliver superior digital solutions to customers and be their reliable partner

Mission:

Consistent pursuit of technological excellence and quality service delivery

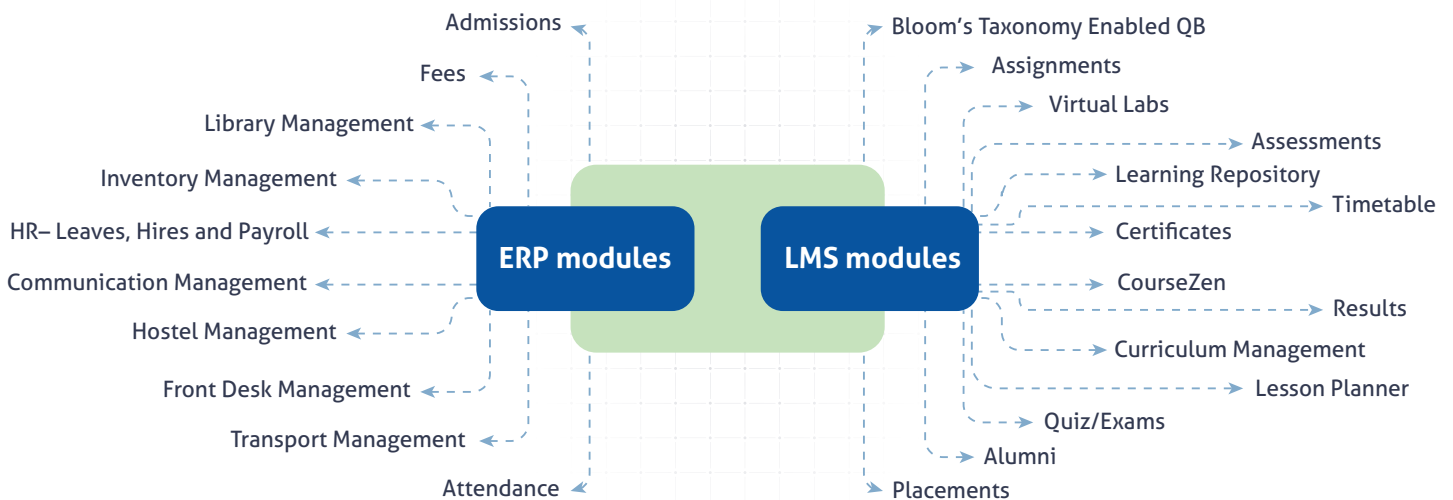

Company

MAPMyClasses is an indigenously built product of MAPSystems, a global service provider leading the creative and technology landscapes with world-class and diverse offerings that have been helping startups, mid- sized businesses, professionals, and institutions in generating high returns on their investments and making an optimal use of high- quality outcomes to support their growth.
